

CULINARY: MOBILE KITCHEN

WE LEARN, WE WORK, WE HELP SERVE OUR FORESTS

WHAT'S THE NEED?

WILDLIFE FIRE OPERATIONS SUPPORT

Job Corps students in the U.S. Forest Service Mobile Kitchen crew are trained and equipped to help with assisting the Forest Service with servicing incident camps.

HOW WE CAN HELP !

SUPPLY MEALS

The Mobile Kitchens are meant to support camps that the national caterers don't typically service. The Job Corps Mobile Kitchen is here to service fire fighters and support personnel. We are equipped to serve between 150 and 200 personnel; that's up to 300 meals a day!

TRAINING WE PROVIDE

CULINARY AND FOOD SAFETY

In addition to project assistance, Job Corp students will work with Forest Partners and local kitchens on food ServSafe certifications. Students are also provided with facilitated hands-on training in the use of appropriate tools normally used by culinary professionals in the food service industry.

FUTURE OF MOBILE KITCHEN

The United States Department of Agriculture Forest Service has noticed a need to implement this Mobile Kitchen along with adding two more kitchens in the future. The idea is to base units across the nation, build teams of Forest Service Job Corps Center employees and students to staff the Mobile Kitchen while on assignment. These Mobile Kitchens will supply a valuable service to Wildland Fires.

LET'S BUILD TOGETHER

WORK BASED LEARNING INTERNSHIPS

Teams of Job Corps employees and culinary students are more valuable candidates for excelling in the food service industry. Ensure food freshness and quality while giving trained students career opportunities in a fast growing industry.
